

Hi, I'm Melissa Comey.

I am a mum of four and first joined Frankston Life Saving Club in 2008 when my eldest child Bella started nippers as a five year old. She is now seventeen and is an active patrolling member of the club and also a team member in the club's IRB racing team. Subsequently as my other three children became of age, they also joined the nipper program. With both my boys also moving through to patrolling with their sister and my youngest still happily remaining a nipper. Last season I took the leap and took on the role as Age Manager for the u/9s. I thoroughly enjoyed doing this role and finally saw it as a way of giving back to club that had already given us so much. To be voted in as a board member and take on this role, I see it as further opportunity for me to support the club and its members. I also see it as a way to ensure that the kids and their families are fully supported and guided to participate in the carnivals.
